

Fumigation Free Pallet Machine

Senyu as one of the professional China Fumigation Free Pallet Machine manufacturers and China Fumigation Free Pallet Machine factory, we are strong strength and complete management. We design and produce the Fumigation Free Pallet Machine for more than 6 years. The press wood pallet is a good alternative for the traditional wood pallet, it can save your budget, stock space and shipping cost by choosing the. When you have regular demand of the pallet, it is better to install the Fumigation Free Pallet Machine, and produce the press wood pallet locally, it will greatly

reduce the cost by mass production locally. Most of our products are export to European, American, Asian countries and we look for long term partners in all countries in all areas.

Product Introduction

Hot sale quality Fumigation Free Pallet Machine with Low Price made in China. Senyu is a Fumigation Free Pallet Machine manufacturer and supplier in China. With our excellent management, strong technical capability and strict quality control system, we continue to provide our clients with reliable quality, reasonable prices and excellent services. We aim at becoming one of your most reliable partners and earning your satisfaction for Hot-selling China CNC Metal Pipe and Metal Sheet Plasma Cutting Machine, We sincerely welcome close friends from all over the planet to cooperate with us within the foundation of long-term mutual benefits. Hot-selling China CNC Plasma Cutting Machine, Plasma Cutting, We have a good reputation for stable quality products, well received by customers at home and abroad. Our company would be guided by the idea of "Standing in Domestic Markets, Walking into International Markets". We sincerely hope that we could do business with customers both at home and abroad. We expect sincere cooperation and common development!

China Fumigation Free Pallet Machine Suppliers and Manufacturers

Product Introduction of Fumigation Free Pallet Machine

The Fumigation Free Pallet Machine, includes wood chipping machine molding press machine, crushers, dryers, glue mixers, storage bins, etc. The production line has been designed by our company for many years of production experience, with good stability, high production efficiency,

low energy consumption, and flexibility. It is convenient to change the press molds, can produce various specifications of pallets, easy to install, does not require basic positioning. This machine has a reasonable design and structure. And we can send our worker to install or provide video instruction on how to install it. And good after sales service, we also produce the press wood pallet, so we can solve any possible problems during production.

Applications of Fumigation Free Pallet Machine

The Fumigation Free Pallet Machine is used to produce high quality press wood pallet, it is a good alternative of the traditional wood pallet. It can use in the all the industries using traditional wood pallet, and we can customize the size and design to meet your requirement. It has a wide range of uses, suitable for packaging, transportation, and turnover of building materials, electrical, hardware, food, chemicals, furniture and machinery together with goods, and are especially suitable for container trucks (container trucks). It can be used for trains, automobiles, airplanes and ships for mechanized loading and unloading operations. It can also be used as a backing board for docks, shopping malls, warehouses and cargo stacks. It is an ideal tool for warehousing, exporting and logistics.

Qualification of Fumigation Free Pallet Machine

Qingdao SenYu(Scenix) is located in the beautiful city of Qingdao, China, specialized in the R&D, sales and manufacturing of Fumigation Free Pallet Machine. Through years of strenuous effort, we have started to play an important role in this market. We have 3 modern workshops and production line, with patent technology to make the stable Fumigation Free Pallet Machine with an annual output of 5000,000pcs.

It can save the domestic shipping cost and provide fast and convenient delivery. And only 20 minutes' drive to the Jiaodong international airport, welcome to visit our factory.

Attentions on stock and use of the Fumigation Free Pallet Machine

1. Materials containing wood fiber refer to bagasse, bamboo, waste wood, short wood, straw, etc.
2. Anything containing wood fiber can be used as a raw material. Therefore, a wide range of raw material sources saves the manufacturing cost of the product to a large extent.
3. In order to ensure that the raw materials and glue are evenly mixed, the moisture content of the dried raw materials should be maintained at 5%
4. The adhesive mentioned above is phenolic glue or other glues.
5. In actual use, the measurement of tray performance depends on static load and dynamic load load
